Prep & Cooking Suggestions:

KEEP FROZEN UNTIL USED. DO NOT REFREEZE IF THAWED. Cook until a minimum internal temperature of 158°F (70°C) is reached. TO THAW, place in refrigerator overnight. DO NOT THAW in warm water or at room temperature.

Serving Suggestions:

Its mild, clean flavour compliments any flavour profile. Tail: this is the most economical piece of the fish. It is thinner than the centre cut and somewhat triangular in shape, the shape of a full fillet piece. This cut offers the greatest plate coverage.
