HANDLING SUGGESTIONS

Store in cool, clean, dry area not above 50% relative humidity and 75 Degrees Fahrenheit.

PREPARATION & COOKING SUGGESTIONS

Honey used in baked goods holds and contributes moisture, eliminates dryness and crumbliness and enhances the texture. The gluconic acid and tartness found in honey can be used to enhance the flavor in sauces and dressings. Honey contains a low pH (3.9); thus when blended into beverages and dairy products, honey will not disrupt the pH balance.
