HANDLING SUGGESTIONS

Keep frozen until use. Thaw item(s) on an as needed basis. Refrigeration increases the staling effect on bread. Thaw product to ambient temperature and wipe dry any moisture off of the bags. Date product "best by" 30 days from the day the product was thawed. Rotate older product on top or in front of newer product. Proper rotation assures better sell through and lower stale. Face the product with the logo towards the consumer. Open end of the bag should face towards the back of the shelf.
