Jasper Hill

17952 - Harbison

Harbison is a soft-ripened cheese with a rustic, bloomy rind. Young cheeses are wrapped in strips of spruce cambium, the tree's inner bark layer, harvested from the woodlands of Jasper Hill. The spoonable texture begins to develop in Cellars at Jasper Hill vaults, though the paste continues to soften on the way to market. Harbison is woodsy and sweet, balanced with lemon, musta...

SERVING SUGGESTIONS

Harbison is a great excuse to gather a few friends and scoop into a decadent treat. When a bit younger, the bark can be peeled away for sliced portioning. If the bark has fused with a more loosened paste, then the best approach is to leave the bark intact and spoon out portions from the top. Pair with oaked white wine, or barrel-aged sour beer. Fruit mostarda and crusty bread make nice accompaniments.
