Do not overbeat Heat vegetable oil or shortening to 400 F in a 9 inch skillet or deep fryer. Oil is ready when a drop of batter floats to the surface and turns brown. Pour batter quickly from a funnel cake pitcher or measuring cup in full circle near edge of fryer. continue pouring in zig zag pattern creating a web design. Do not overfill as batter expands as it cooks. Cook approximately 30 seconds. When edges look brown, turn cake over w tongs. Continue cooking approximately 20 seconds. Remove from oil with tongs, allowing excess oil to drip off. Top with your favorite topping such as powdered sugar, cinnamon sugar, fruit to name a few.
